👤 Profile

Highly motivated and detail-oriented web development student with a strong foundation in front-end and back-end technologies. Proficient in HTML, CSS, JavaScript, and familiar with frameworks like React and Node.js. Passionate about building responsive, user-friendly websites and web applications.

🎓 Education

2020 – 2024	**B.Tech - 8.1 CGPA**	Berhampur, Odisha
	Roland Institute Of Technology	

🧠 Skills

Web Technology - Html, Css (Framework - tailwind) and Javascript.	Frontend Library - React Js.

Backend Technology - Node.js, Express.js · Database - Mongodb / Sql

Programming Language - Java and Javascript. · Logical Programming - (Arrays and Strings)

DSA (Data Structure and Algorithm) · Key Skills - Communication skill.

📁 Projects

Frontend Project - EMT (Employee Management System)
Developed an Employee Management System using React.js with LocalStorage for data persistence. Implemented CRUD operations for managing employee records. Designed a role-based system with an Admin Panel for managing employees and a User Dashboard for employees to view their details. Used React Router for seamless navigation, ensuring a user-friendly and efficient experience.

Full Stack Project - Article app (Link) ⬈
Github - https://github.com/MrPABITRAPRADHAN/Article-app-render
Developed a Article-Taking App using Node.js and Express.js for backend logic, ensuring efficient handling of user requests. Implemented Handlebars.js as the templating engine to enable dynamic rendering of notes. Designed RESTful routes for CRUD operations (Create, Read, Update, Delete) using Express Router, allowing seamless note management. Integrated MongoDB with Mongoose for structured database storage and schema modeling. Configured MVC architecture to enhance code organization and maintainability. Created an interactive UI using Handlebars views for users to add and view notes easily. Implemented robust database connection handling with error management using Mongoose. Additionally, used dotenv for environment variable management to secure database credentials, ensuring application security and scalability.

🏅 Licenses & certifications

2024/07 – present	**Full stack Development Course**	Bengaluru, India
	J Spider	
2024/01	**Java Programming** ⬈	Online
	Simplilearn
